

MOVE. TOW. CARRY. HAUL.

Shown with diamond plate body.

Stockchaser

The Stockchaser is the way to move heavy loads in tight spaces. With a deck capacity of up to 1,200 lbs. you'll be hard pressed to need more cargo capacity than this compact performer will transport efficiently.

An optional special duty package increases the Stockchaser's towing capacity to 6,000 lbs., making it uniquely suited to moving heavy loads in narrow spaces.

The adjustable backrest and stand-up operation provide a safe and comfortable position for the driver. The Stockchaser's tubular steel chassis and steel body panels make it as rugged as it is maneuverable. And, with its standard dual tire front fork, it is the most stable narrow aisle burden carrier available.

Perfect For:

- Manufacturing
- Warehouses
- Towing
- Wherever an agile burden carrier is needed
- Distribution Centers
- Maintenance
- Parts Expediting

Shown with six step ladder.

Shown with towing package and side rails.
